From the Desk of the Editor

Dear Readers,

In 2024-25, yet again, team NRL demonstrated exceptional professionalism by achieving over 100% capacity utilization. Sales volume reached unprecedented heights. New records have been set in MS, Wax and Sulphur production as well as sales. Remarkable performance has been demonstrated in operational availability, plant reliability and operational efficiency besides safety management.

We have come a long way since commencement of our commercial operations. We can now look back with a sense of pride and accomplishment in establishing NRL as a solid success story in this part of the country. In the recently concluded Advantage Assam 2.0 mega investment summit, the Government of Assam's showcasing NRL's performance and upcoming initiatives before prospective national and global investors bears testimony to this reality.

Our presence at the India Energy Week 2025 in New Delhi was another moment to cherish. The OIL-NRL stall stood out as a symbol of collaborative innovation, drawing visitors and dignitaries—including Hon'ble Minister of Petroleum and Natural Gas.

Physical progress of our refinery expansion project (NREP) crossed 71%, while that for the NREP and Paradip Numaligarh Crude Oil Pipeline (PNCPL) combined, is over 83%. These are significant achievements that foster a sense of optimism in our ability to commission a few of the units under the NREP within this calendar year itself. Commissioning of the 2G ethanol bio refinery in the next few months is another event we look forward to as our teams at the front and backend are leaving no stone unturned to ensure fructification of this rare and unparalleled feat.

This 86th edition of the 'Rodali' is of particular significance given the fact that there has been a change in editorship after a span of nearly two decades. Nevertheless, at this opportune time it a great privilege for me to present interesting events and commendable achievements that has glorified the NRL family during the financial year that has just gone by. All these and many more as you flip over the pages.

With warm regards

J. Goswami

Highlights of NRL's performance during Q4 of FY 24-25 and FY 2024-25

(Disclaimer: All specified numbers are provisional pending finalisation of accounts for fy 2024-25)

Physical Performance (Q4)

Capacity Utilization and Record Production:

NRL's crude throughput during the fourth quarter of the year was 810 TMT. For the entire financial year, NRL achieved crude throughput of 3,066 TMT marking yet another year of over 100% capacity utilisation.

MS, Wax and Sulphur production were at an all-time high at 725 TMT, 50 TMT and 5.6 TMT respectively.

Production Efficiency:

Distillate yield during Q4 was 88.0%. while that for the full year was 86.7%. Specific Energy Consumption was 61.1 MBN for Q4 and 61.5 MBN for 2024-25 while corresponding Energy Intensity Index numbers were 79.9% and 81.1% respectively.

Marketing Performance

a. Sales

- Highest ever sales volume of 3,122 TMT was recorded in 2024-25 surpassing the previous highest of 3,019 TMT in FY 2022-23.
- MS, Wax and Sulphur sales were 707 TMT, 48.6 TMT and 5.7 TMT respectively.

b. Logistics & Distribution Milestones

- Road Loading: 1,520.5 TMT (Previous: best 1,491.7 TMT in FY 2022-23)
- Local Sales ex-NRMT: 1,245 TMT (Previous: best 1,216.3 TMT in FY 2022-23)
- HSD Local Sales ex-SMT: 217.1 TMT (Previous: best 200.8 TMT in FY 2018-19)
- MS & HSD Local Sales ex-NRMT:
 - MS: 320.9 TMT (Previous: highest 306.4 TMT in FY 2023-24)
 - HSD: 715.5 TMT (Previous: highest 692.9 TMT in FY 2022-23)

Capital Expenditure:

Highest-ever standalone capital expenditure was achieved in 2024-25 at around ₹9,038 crore surpassing previous year's record at ₹8,585 crore. In addition to project capex, NRL invested ₹18.6 crore as equity in the joint ventures M/s DNP Ltd. and M/s IGGL

Progress status of major ongoing projects as on 31st March'25:

Project	Cost (₹/ CR)	Physical Progress (%)	Financial Progress (%)	Anticipated Completion
NREP – 6 million refinery	22,494	71.9	68.42	December, 2025
NREP – PNCPL & COIT	11,407	83.8	80.76	September, 2025
Poly-propylene Plant	7,231	(EC Obtained)	16.9	2028-29
DCU Revamp	370	68.4	58.06	December, 2025
Power Recovery Turbine in PFCC unit	293.50	89.0	33.12	December, 2025
SMT Augmentation	484	70.5	46.6	December, 2025
LPG Marketing terminal at Dabidubi, Assam	338	17.0	27.44	December, 2025
Replacement of heater-coke chamber	230	-	55.56	December, 2025
Coke Drum Structural Project for NREP	635	17.48	3.54	December, 2025
DCU reliability and efficiency improvement project	355	-	-	December, 2025
Green Hydrogen Plant – 2.4 KTPA	170	26.0	23.93	September, 2025
2G Bio Refinery (JV-ABEPL – 50% equity)	4,200	99.2	99.64	June, 2025

NREP Updates

In the Jan-March 2025 quarter, significant achievement was recorded across various areas of the Numaligarh Refinery Expansion Project (NREP). On the engineering front, 90% model review has been completed for all process units. Major equipment required for the project have reached project site and erection is going on in full swing. Over 80% of total fabricated structural steel have been received at site, facilitating the speedy progress of structural erection and commencement of piping works. For EPCM process units, MTO-3 piping bulks (including pipes, fittings, flanges, valves) procurement have been completed for some components, while procurement action for the remaining items is in progress. Meanwhile, MTO-2 bulk piping materials receipt is nearing completion, providing sufficient fabrication front to the spooling vendor. Procurement activities for electrical and instrumentation items are progressing satisfactorily. The Satellite Rack Room (SRR4) of the CDU/VDU unit of NREP has been completed. This first major building of NREP was

inaugurated by the Director (Technical), NRL in august presence of the Director (Operations), OIL.

The VDU Column with an overall height of 48.28m, diameter of 10.81m, and a weight of 635 MT has been successfully erected. Transporting this over-dimensional, over-weight consignment to Numaligarh by waterways and by road was a critical logistical achievement.

Heater package erection jobs have been completed in the DHT Unit and are progressing well in other units. 24/24 tanks erection completed, and hydrotesting successfully conducted for 23 out of 24 tanks, including three crude tanks. Furthermore, 12 out of 14 ODC/OWC have been received with 10 successfully lifted and erected. The foundation for the next ODC/OWC in sequence-Flare KOD has been completed and Hard stand preparation is in progress. The vessel has already been transported inside the NRL site and is expected to be erected in the next quarter (April 2025).

Marketing Highlights

The marketing department recorded history by registering highest ever product sales in 2024-25 at 3,122 TMT surpassing the previous highest of 3,019 TMT in 2022-23. MS, Wax and Sulphur registered unprecedented sales at 707 TMT, 48.6 TMT and 5.7 TMT respectively. HSD sales was 2,030 TMT against 1,808 TMT in 2023-24. Road loading from NRMT and SMT together reached the level 1,521 TMT against previous highest of 1,492 TMT that contributed towards minimising under-recoveries. Notwithstanding political turmoil, export of diesel to Bangladesh rose to 79 TMT from 38 TMT in the previous financial year. A total of 520 POL rakes were loaded from SMT and NRMT during the financial year.

Other highlights of Marketing Function comprised renewal of Wax distributorship agreements with eight distributors and imparting candle making training at various locations including Guwahati, Khetri, Tinsukia and Silchar. Customer interaction programmes were organised in Jalandar, Patna and Bangalore.

New Customer Onboarding - AGCL

AGCL Retail Onboarding Begins (Mar '25)

AGCL, a new customer, commenced MS and HSD upliftment for their upcoming retail outlets in March 2025.

Launch of Sponsorship and Advertisement Apps

NRL's IIS department has successfully developed and implemented a new online, workflow-based platform for processing Sponsorship and Advertisement proposals. The portal was inaugurated by MD, NRL on 2nd January 2025 at the Corporate Office, Guwahati in presence of former

Director (Finance) and other senior officers. Currently implemented for use by the Corporate Communications department, the app is being customized for use by the PR Section of HR Department in Numaligarh.

Developed in-house by the IIS Department, the application was built by a dedicated team comprising Ms. Usha Kakati, Chief Manager (IIS) and Ms. Dakshita Ranjan, Software Developer under the guidance of Sri Nalini Kanta Buragohain, CGM (Corporate Affairs). The system digitizes and streamlines the end-to-end process of proposal handling covering receipt, tracking, processing, review, approval, and budget management. It also integrates automated email notifications and real-time status update, enhancing efficiency, transparency, and accountability in managing sponsorship and advertisement requests.

Advantage Assam 2.0

The Government of Assam's hosted the "Advantage Assam 2.0 – Investment and Infrastructure Summit 2025" on 25th and 26th February 2025, in Guwahati. The summit represented a significant endeavor to showcase the State's potential as a major investment destination. This global investors' summit aimed to redefine the industrial policy landscape of Assam and capitalize on its strategic location under the Act East Policy, positioning the State as a gateway to Northeast India and Southeast Asia.

Assam's economic performance has demonstrated notable progress, evidenced by a 19.5% year-on-year increase in its Gross State Domestic Product (GSDP) in the fiscal year 2023. Projections for 2024-25 indicate a GSDP of ₹6,43,089 crore, representing a 13% growth over the previous year. This economic expansion has translated into tangible improvements in living standards, with the State's per capita income for 2023-24 estimated at ₹1,35,787, marking a 123% increase over the past five years.

The state government's proactive approach to attracting investments is exemplified by the establishment of a ₹25,000 crore corpus fund for Production Linked Incentives (PLI), aimed at accelerating industrialization. A prime illustration of Assam's investment potential is the

Tata Group's ₹27,000 crore semiconductor assembly and testing unit in Jagiroad, underscoring the State's capacity to attract large-scale, high-tech investments.

NRL alongwith its holding company Oil India Limited (OIL) put up an impressive stall in the Energy Pavilion in 125 sq. mtr. area to show case respective company's growth story, present performance and future initiatives.

CMD OIL & Chairman NRL, Dr. Ranjit Rath and MD NRL, Mr. B.J. Phukan were present to greet the hon'ble Prime Minister Shri Narendra Modi during his visit to the Energy Pavilion in late evening on 24th February. During course of the summit, NRL-OIL stall was visited by several dignitaries from India and abroad. The hon'ble Chief Minister of Assam spent nearly 20 minutes at the NRL-OIL stall interacting with officials of both companies. The first two days of the summit witnessed a footfall in the stall exceeding 3,900. In the following three days when the summit was opened to public, total footfall exceeded 6,700.

In the summit, NRL signed MoU with the Government of Assam for investment of over ₹10,700 crore in various sectors. CMD OIL & Chairman NRL and MD NRL participated in panel discussions during the technical session "Unlocking Assam's Energy Potential" which was chaired by the Hon'ble Petroleum Minister of India Shri Hardeep Singh Puri. The panel discussions also featured eminent personalities from the Oil and Gas business like Dr. Sam Algar from Cairn Vedanta, Mr. Saugat Ghosh from Matheson Hydrogen and Mr. Kaushik Rai from Adani Total Gas.

NRL's participation in the India Energy Week 2025 at Yashobhoomi, New Delhi

The year's first major energy event, the India Energy Week 2025 (IEW 2025) was held from 11th till 14th February 2025 at Yashobhoomi Convention Centre, Dwarka in New Delhi. The event was organised under the aegis of the Ministry of Petroleum and Natural Gas (MoP&NG), Government of India, and coordinated by the Federation of Indian Petroleum Industry (FIPI). The event brought together the full spectrum of the energy value chain—producers, consumers, innovators, and policymakers—under one roof to shape a sustainable energy future.

IEW 2025 welcomed over 70,000 energy professionals, 120+ participating countries, 700+ exhibiting companies, and 500+ speakers, including union ministers, CEOs of leading oil & gas and renewable energy companies, technology providers and start-ups. The event featured 105 technical sessions, 10 international country pavilions, and dedicated zones for hydrogen, biofuels, net zero, and start-up innovation.

The event received attendance and support from major PSUs under MoP&NG including IOCL, ONGC, GAIL, HPCL, BPCL, EIL, OIL and NRL, where the companies showcased their flagship projects, net-zero commitments, biofuel initiatives, and green hydrogen innovations.

The event was inaugurated virtually by the hon'ble Prime Minister Shri Narendra Modi on 12th February. Union Minister for Petroleum and Natural Gas Shri Hardeep Singh Puri, addressing multiple forums throughout the energy week, highlighted India's commitment

to a just energy transition. He reiterated MoP&NG's vision for cleaner fuels, expanded LPG access, increased refining capacity, and a larger biofuels mandate. He also held bilateral meetings with global ministers and CEOs to promote investment opportunities in India's energy sector.

IEW 2025 was the first carbon-neutral global energy summit in India, certified by an independent sustainability auditor. The venue, logistics, and event design were geared towards reducing environmental footprint, supported by electric mobility options and solar-powered event zones.

IEW 2025 has firmly established India as a decisive force in shaping the global energy future - bridging traditional and new energy, economic growth and sustainability, and domestic potential with international partnerships.

During the event, MD, NRL took part in various technical discussions and addressed the gathering in the Assam Session on 13th February.

Asom Sahitya Sabha Convention

The first event highlight of this calendar year came from the cultural heartland of Assam, Pathsala. The 77th biennial Asom Sahitya Sabha Convention was held in Pathsala from 31st January till 4th February. NRL had the privilege of participating in the Sabha's first-ever Science Exhibition. The exhibition provided NRL with a platform to connect with the community, showcasing the

Company's initiatives, innovations and contributions to the hydrocarbon sector. A model of the upcoming Ethanol Bio Refinery of Assam Bio Ethanol Pvt. Ltd., where NRL is the major share holder, was conspicuously displayed at the Sabha which drew wide-scale public attention. NRL's stall was graced by the Hon'ble Ministers of Assam – Shri Keshab Mahanta and Shri Ranjeet Kumar Das.

MoUs and Collaborations

MoU signed between NRL and Govt of Assam in Advantage Assam 2.0

Under the aegis of Advantage Assam 2.0, the Investment and Infrastructure Summit 2025, NRL signed Memorandum of Understanding (MoU) with the Govt. of Assam on 25th February 2025 towards investing more than ₹10,700 crore in Assam. The MoU was signed in the august presence of the Hon'ble Chief Minister of Assam, Dr. Himanta Biswa Sarma. The investment will be distributed

across multiple projects within the state comprising petrochemical unit, renewable energy, product storage facilities and speciality chemicals, contributing towards sustainable development of the Company and the State. The proposed projects are expected to generate substantial direct and indirect employment opportunities.

MoU signed between NRL and IITG

Mr. B. J. Phukan and Prof. Devendra Jalihal at the MoU signing ceremony

NRL and the IIT Guwahati have formalized a strategic MoU on 13th March 2025 to collaborate on pioneering R&D in sustainable technologies, automation and clean energy solutions.

The MoU was signed by MD, NRL, Mr. B. J. Phukan and Director, IIT Guwahati, Prof. Devendra Jalihal in presence of CGM (Corporate Affairs), NRL, Mr. N K Buragohain, Prof. Senthilmurugan Subbiah, IIT Guwahati, and other senior officials from both organizations. The partnership seeks to leverage cutting-edge research to address complex challenges in the energy and petroleum industry, promoting cleaner, and more efficient solutions.

MD, NRL, Mr. Phukan in his address, highlighted that NRL's focus on digitalization and innovation is critical

towards maintaining competitive advantage. Mr. Phukan emphasized that the collaboration with IIT Guwahati is a vital step towards achieving operational excellence and optimizing production processes while contributing towards sustainable industrial practices.

Prof. Devendra Jalihal highlighted the importance of the collaboration, emphasizing that the NRL Center of Excellence (NRL CoE) at IIT Guwahati will serve as a crucial platform for bridging the gap between academia and industry through translational research. This collaboration reinforces the commitment of NRL and IIT Guwahati towards advancing technological innovation and promoting sustainable industrial development in India.

Awards and Accolades

NRL Honoured at 'Governance Now 11th PSU Awards 2025'

NRL has been awarded the 'Best Use of Automation & Digital Technologies' under Miniratna category at the prestigious Governance Now 11th PSU Awards 2025, held in New Delhi on 28th February 2025. The recognition acknowledges NRL's innovative and multifaceted initiatives which have enabled operational excellence through digital transformation, corporate leadership, and governance.

The award was presented by Mr. Satya Pal Singh, former

NRL awarded the Governance Now 11th PSU Award

Minister of State for the Ministry of Human Resource Development, Ministry of Water Resources to Mr. Banajit Saikia, Head (Coordination), NRL, Delhi.

NRL's digital transformation initiatives were also showcased at the India Energy Week 2025 held from

11th till 14th February 2025. The event highlighted NRL's technology interventions, including the Smart Truck Parking and Access System, J5 Operations Management System and Integrated Electronic Data & Document Management System, which received widespread appreciation.

Events

Celebration of 76th Republic Day at NRL

The 76th Republic Day was celebrated with a vibrant ceremony at Kunjakanan, NRL Township in Numaligarh. NRL's Managing Director was the Chief Guest in the event who unfurled the National Flag. MD NRL was accompanied by Mr. Sanjay Choudhri, the then Director (Finance), Mr. Girish Kumar Borah, Director (Technical) along with NRL employees and their families, representatives from VKNRL Hospital, DPS Numaligarh, the CISF and AISF. In his Republic Day address, MD NRL Mr. B J Phukan emphasized upon the crucial role of individual contribution to national development and highlighted NRL's commitment towards

the energy sector and community development in its operational areas. The event featured a lively march past, followed by a cultural program showcasing performances from the CISF NRL unit and students from the DPS Numaligarh. The celebration concluded with distribution of mementoes to the participating march past platoons and cultural groups.

The National Flag was unfurled at NRL Guwahati office by Mr. Nalani Kanta Buragohain, CGM (Corporate Affairs). In Siliguri Marketing Terminal, Mr. Sujit Das, GM (SMT) hoisted the National Flag.

Support to Farmers for Pumpkin Cultivation

Through its CSR initiative, NRL has undertaken a project on pumpkin cultivation which aims to empower farmers and enhance the rural economy through sustainable pumpkin farming across 1,000 bighas of land in Golaghat district. In partnership with Krishi Vigyan Kendra, the project promotes eco-friendly practices, community-based development and the creation of green, clean villages in line with national growth goals. The project is being implemented in multiple areas including Marangi Pathar, Ponka Borchapori, Mitha Aam Chapori, Bonkual, Kuruwabarhi, Dhodang, and Difollo Pathar. The initiative has shown promising results with production of over 20 tonnes of pumpkin.

Revival and Renovation of Wetlands of Golaghat District

NRL has initiated a CSR project to revive wetlands in Golaghat district with particular focus on Sankar Beel in Morongi area. The initiative involves extensive cleaning to remove invasive water hyacinth, thereby renovating the water body and making it suitable for scientific fish farming. On 27th March 2025, a community-centred program was organised to inaugurate the fish cultivation

project during which fish species such as Rohu, Catla, Amur Carp, Grass Carp, Silver Carp, and Mrigal were introduced. This comprehensive effort is designed to enhance environmental sustainability through ecological restoration and to boost local livelihoods by creating new opportunities in fish farming, eco-tourism, and community empowerment.

Contribution from the editor's desk

Narcissism

I had a quest to learn more about narcissism, and in doing so, came across some interesting facts which I thought would be worth revealing.

Essentially, narcissism refers to the feeling and attitudes towards one's own self. It is the core of self-esteem and emotions which influences the way one perceives and relates to others. Psychologists define narcissism as a pervasive pattern of grandiosity, a constant need for admiration, characterised by lack of empathy, beginning in early childhood, often lasting an entire lifetime.

A real insight about narcissism can be found in the book 'The Laws of Human Nature' where the author divides narcissists into three categories – deep narcissists, functional narcissists and healthy narcissists.

Deep narcissists are the ones we generally refer to as narcissists, and those who are completely self-

absorbed. They cannot empathise with others. To them, people are a means to an end. They survive by their need for attention from others. They are unable to withstand insult or criticism.

Functional narcissists are the vast majority of the human populace. Most of us fall in this category. Functional narcissists have a somewhat coherent sense of self which prevents their transformation into deep narcissism. They can focus their attention outwards into constructive endeavours and relationships.

Healthy narcissists are few and a coveted lot, having a strong and resilient sense of self. They do not depend

on constant validation from others. They accept their flaws and imperfections. They are not disturbed by occasional insults and criticisms. Due to the strength of their inner self, healthy narcissists can easily direct their attention

Photo courtesy: modernfamilylaw.com

outwards, showing excellence in work and building healthy relationships. Without the need of external validation, their minds are channelised towards creativity and innovations.

The concept of our 'inner-self' is central to the understanding of narcissism. Development of self is also our first effort at independence in life. Humans unconsciously create their inner-self in early childhood based on things learnt by observing their parents and experiences. We need this self to love, support and soothe us at times of need. The self is necessary to provide inner validation of our thoughts and actions.

The self that gets developed during early childhood stays with us throughout life. Psychologists offer diverse views on whether the self can be changed later in life. Many of them do agree that the inner-self can be changed to suit the needs of an individual with proper understanding and practice.

Meditation is believed to play an important role in our understanding of the self. But, for many of us, meditation is often a formidable task and a long journey. However, meditation can be practiced by anyone in a simple manner focusing on the self and then advancing progressively. It would take time, effort and discipline but eventually it opens up the path towards self-realization and understanding of the self.

Narcissism is also relative to a sense of contentment – a direct result of our internal validation. In this context, we come across an apparently paradoxical situation. One may appear as a healthy narcissist notwithstanding an inherent nature of a deep narcissist. We come across individuals of exceptional talent, epitome of creativity, innovation and who may even be a noted celebrity – clear evidence of a healthy narcissist. If such a celebrity lacks a strong self for internal validation, dependence on constant external validation becomes a compelling necessity.

Therefore, despite achievement of unparalleled success, life of such celebrities would tend to remain unfulfilled at the core. Thus, they largely remain uncontented, even manifesting rebellious and unpredictable tendencies at times.

Here it is pertinent to realise that under stimulus from intoxicants it is possible to temporarily suppress the self and experience false feeling of pleasure and elation. These are moments when a deep narcissist can get transformed into an apparent healthy narcissist. However, once the effect of stimulus wears off, the self takes over. This gives rise to the need for continuation of the false sense of good life as a matter of compulsion.

Deep narcissists suffer from a medical term called narcissistic personality disorder (NPD). The disorder is not a flaw or a character defect. It is just a health disorder. It happens for reasons that experts have not yet been able to fully comprehend. People with the disorder may not be aware of it. Often, it takes some kind of stressful event in life such as personal crisis, relationship failure, career setbacks, financial strain for the symptoms to make their appearance.

Maintaining a relationship with a narcissist is a delicate affair. The disorder can be harmful to relationships as it leads to emotional distress for those around the narcissist. It is important to remember that any attempt to make a narcissist see reason or point out their hurtful behaviour would simply be futile as they do not realise or feel that they have done anything wrong. In fact, trying to reason or argue with a narcissist can be risky as it may damage their self-image of perfection. Any message to a narcissist has to be delivered calmly, respectfully and as gently as possible.

Achievers

Mr. Geetam Misra, Sr. Officer (HR), Benefit Admin & Payroll has been awarded the doctorate (PhD) degree by the Krishna Kanta Handique State Open University in Management on 3rd February 2025. Mr. Misra carried out research under the supervision and guidance of Prof. Nripendra Narayan Sarma. The Convocation ceremony was held on 3rd March 2025 at the University campus and the certificate was handed over by His Excellency Sri Lakshman Prasad Acharya, Hon'ble Governor of Assam.

Ms. Protiti Hati Baruah secured the first class, first position in Masters Degree on Molecular Biology and Bio Technology from the Cotton University. Hon'ble Governor of Assam, Shri Lakshman Acharya awarded the Gold Medal to Ms. Protiti for her achievement on 5th March 2025 at an event in Guwahati. Ms. Protiti is the daughter of Shri Rintu Hati Baruah, Sr. Officer (LIV) and Smt. Gitali Gogoi Hati Baruah.

Ms. Protiti Hati Baruah with the Gold Medal

Superannuation

Mr. Sanjay Choudhuri, superannuated as Director (Finance) of NRL on 28th February 2025. His leadership and financial acumen propelled NRL's success and growth to a higher level. Mr. Choudhuri made immense contribution in facilitating the land acquisition and the right-of-use (ROU) for the Paradip Numaligarh Crude Oil Pipeline. Mr. Choudhuri also served as Director and Chairman

of the Assam Bio Ethanol Private Limited (ABEPL) where NRL is the major shareholder. As he embarks on this new chapter of life, the NRL family extends heartfelt gratitude and wishes him a happy retirement life filled with good health and enduring happiness.

Mr. Amarendra Nath Choudhury, GM (Finance) also superannuated on 28th February 2025 after a long stint since he joined the Company in March 1995. Mr. Choudhury made remarkable contribution while serving in the Finance department and was particularly instrumental

Farewell to Mr. A.N. Choudhury

in efficient functioning of the LIV section. Mr. Choudhuri was associated with various social welfare activities. The NRL family will remember Mr. Choudhuri for his helping attitude to his fellow colleagues and problem-solving ability.

Mr. Ranju Moni Gogoi, Manager (Operation) and Mr. Amal Bordalo, Office Assistant (Commercial) superannuated on 31st March 2025. The NRL family wishes Mr. Ranju Gogoi and Mr. Amal Bordalo a happy and healthy post-retirement life.

Farewell to Mr. Ranju Moni Gogoi

Farewell to Mr. Amal Bordalo

Pushpa Mela at NRL Township

The Kunjakanan Pushpa Mela 2025 was celebrated as a two-day gardening competition in the NRL Township. The event was inaugurated by chief guest, Mrs. Geetali Phukan. The event showcased gardening skills of participants, who competed with their well-curated plants and floral display. Alongside the gardening competition,

a photography competition and exhibition display were also held, capturing the essence of nature and the beauty of the floral arrangements. In the closing ceremony, a mesmerizing cultural show was performed by a talented local artist, Mr. Arup Bora.

NRL's Representation in the WIPS

In the Forum of Women in Public Sector (WIPS), Smt. Ranjana Chakravorty, DGM (IHP) was elected as the Secretary, Eastern Region for 2025-27. This marks NRL's maiden representation in the forum WIPS. The Forum was created way back in 1990 under the aegis of SCOPE and continues to assist PSUs in harnessing the full potential of their women employees.

Ms. Ranjana Chakravorty at the WIPS event

The DNest Picnic

The annual DNest Picnic was joyfully held on 5th January 2025, marking the first Sunday of the New Year with camaraderie, laughter and togetherness. Members of the

DNest community along with their families gathered in a spirit of celebration to usher-in the New Year with renewed energy and warmth.

The Magic Show

A delightful Magic Show was organized on 1st February 2025, bringing wonder and entertainment to the DNext community. The event was graced by our patrons - Managing Director and former Director (Finance) - whose

gracious presence added prestige and warmth to the occasion. The magician's interactive style and charm left the audience spellbound and thoroughly entertained.

Farewell to Mr. Sanjay Choudhuri

On 1st March 2025, a memento was presented to bid a fond farewell to our former Director (Finance) Mr. Sanjay Choudhuri and Madam Monideepa Choudhury as they prepare to embark on a new chapter in their lives.

As a gesture of deep respect and heartfelt remembrance, the mementos were graciously handed over by Mr. Nalini Kanta Buragohain, President, DNext, and Madam Parineeta Buragohain on behalf of all DNext members.

Farewell to Mr. Sanjay Choudhuri

Get-Together for Kaliyani Club's Staff and their Families

As a humble gesture of gratitude, Kaliyani Club organized a formal get-together on 30th March 2025 for the club staff and their families. The event was held to acknowledge and appreciate the contributions of club staff.

The event was graced by Mr. Girish Kr. Borah, Director

(Technical) and the president of Numali Club, Mrs. Geetali Phukan, Their presence added warmth and glamour to the occasion. Director (Technical) offered valuable advice and guidance for inspiring and motivating the club staff members.

Tribute

Kaliyani Club paid heartfelt condolences and deepest homage to its beloved member, late Bibekananda Dewan. Members of the club gathered to express their grief and extend sympathies to the bereaved family.

A moment of silence was observed as a mark of respect followed by tributes from the club members who reminisced about contributions made by Bibekananda Dewan and the impact he had on those around him. His absence will be dearly felt, but his memories will remain in our hearts forever. May his soul rest in eternal peace.

'Rippling Pages' a literary event 'Expressions Unbound' organised by Kaliyani Club

Kaliyani Club successfully completed the 2nd session of the 'Rippling Pages' literary event- 'Expressions Unbound' on 13th March 2025. It was a fulfilling experience, filled with insightful discussions, creativity and inspiring moments. The enthusiasm and energy from attendees made it a memorable occasion. Kaliyani Club is hopeful for even greater participation next time, as it continues to celebrate and promote the beauty of literature. Kaliyani Club expresses its gratitude to everyone who contributed towards making the event a grand success.

Rangchali Club

'Bhogali Bihu' Celebration at Rangchali Club

The joyous and vibrant harvest festival of Assam - Bhogali Bihu was celebrated with great enthusiasm on 15th January 2025 at the Rangchali Club premises. The event was graced by the presence of club members alongwith their families.

The celebration commenced with the traditional 'Meji Prajwalan', symbolizing the spirit of unity and thanksgiving for a bountiful harvest. This was followed by serving of a variety of authentic Bihu delicacies,

which delighted everyone and added to the festive spirit. The event was filled with laughter, camaraderie, and warmth, creating an atmosphere of joy and togetherness.

Saraswati Puja Celebration at Rangchali Club

On the auspicious occasion of Saraswati Puja, the members of Rangchali Club, along with their families gathered on 3rd February 2025 to pay obeisance to the Goddess of Learning, Devi Saraswati. The atmosphere was filled with devotion and spiritual fervour as everyone came together to seek the blessings from the Goddess of wisdom, knowledge and enlightenment.

The celebrations included the traditional rituals of Puja

and Pushpanjali, where members and their families offered flowers and prayers with deep reverence. This was followed by the distribution of Prasad and Bhog, shared joyfully among all attendees, reinforcing the spirit of togetherness.

The active participation of the entire club fraternity made the occasion spiritually enriching and memorable.

7-A-Side Tennis Ball Cricket Tournament at Rangchali Club

Rangchali Club organized a 7-a-side Tennis Ball Cricket Tournament exclusively for club members from 24th February till 2nd March 2025 at the NRL Township main playground. The tournament saw enthusiastic participation from several teams, making the event a grand success, filled with energy, excitement, and healthy competition.

Each match showcased thrilling performances, great

teamwork, and sportsmanship, drawing cheers from fellow members and their families. The tournament not only promoted physical activity but also strengthened the bond of fraternity among club members through the spirit of the game.

The week-long event culminated with a spirited final match and a felicitation ceremony to appreciate the effort of all participants and the organizers.

DPS News

Republic Day Celebration at DPS, Numaligarh

DPS Numaligarh celebrated the 76th Republic Day with patriotic fervour on 26th January 2025 in the school premises. Students as well as teaching and non-teaching staff gathered in the school premises for the celebration. The programme began with unfurling of the National Flag followed by singing of the National Anthem. Inspiring speeches and beautiful dances performed by the students displayed the pride and joy on this momentous occasion in our nation's history.

Devanshi Handique makes the school proud in the RDC Camp

Devanshi Handique of Class IX, DPS, Numaligarh made the school proud with her selection for the prestigious Republic Day Camp in New Delhi. Devanshi had the privilege of briefing VIPs like the Vice President of India, the Director General of NCC, and the Chief of Army Staff. She was also featured in several media channels and personally interviewed the Chief of Army Staff. One of her most memorable experiences was at the Prime Minister's home event, where she had the opportunity to interact with cadets from all over India and the international cadets from Russia, Vietnam, Mauritius, Bhutan and Nepal.

Observance of Blessing Ceremony at DPS, Numaligarh

John Dewey once said, 'Education is not preparation for life; education is life itself.' Keeping this powerful quote in mind, Delhi Public School, Numaligarh observed a Blessing Ceremony with the objective of seeking the blessings of the deity of knowledge on 1st February 2025.

The Blessing Ceremony was conducted with beautifully chanted mantras which filled everyone's minds with peace and serenity. Prayers were observed for the 2024-

25 session CBSE candidates of classes X and XII where the entire DPS Numaligarh family came together to bow their heads to Maa Saraswati and to let the lamp of literacy light the paths of their future. The students of Class XI performed songs and dances in a beautiful cultural program as a mark of respect to bid farewell to the outgoing students of Class XII.

DPS Numaligarh students revel in new experiences on Educational Tours

DPS, Numaligarh students set out to explore and seek memorable experiences as several educational tours were held for different classes in February. Each journey was filled with excitement and the gusto to learn as the students visited places of cultural and historical significance like the 'Swargadeo Chaolung Siu-Ka-Pha Samannay Kshetra' and marvelled at the cosmos in the

'Jorhat Science Centre and Planetarium'. Educational institutes like the Assam Agricultural University, CSIR-NEIST and Tezpur University were also on the itinerary. The tours were a great success as the students were enthralled by the fascinating discoveries and cherished memories of the tours.

'The Mighty Millets. Nature's Nutritional Powerhouse for Health and Sustainability'

RANJAN KALITA
DIETICIAN, V.K. NRL, Numaligarh

Amid mounting health concerns, there is a pressing need to reassess our dietary choices. In this pursuit of healthier alternatives, millets – a diverse group of small-seeded grasses – are emerging as nutritional powerhouses. Their significance extends beyond mere sustenance; they offer a plethora of advantages for human and animal health while combating the escalating threat of non-communicable diseases (NCDs).

Nutrient-Rich Marvels

Millets, encompassing varieties like sorghum, finger millet, pearl millet, and foxtail millet, have been dietary staples for civilizations across centuries. Flourishing in harsh conditions and demanding minimal resources, they play a pivotal role in ensuring global food security. However, their true merit lies in

their exceptional nutritional profile.

Millets are replete with complex carbohydrates, dietary fibre, and vital micronutrients such as iron, calcium, magnesium, and phosphorus. This distinctive composition promotes overall well-being. Notably, their low glycaemic index makes them particularly beneficial for individuals managing diabetes and obesity, offering sustained energy without spiking blood sugar levels.

Nature's Medicine Cabinet: Bioactive Compounds

What distinguishes millets is their rich repository of bioactive compounds—plant-based chemicals endowed with remarkable health-enhancing properties. These include polyphenols, flavonoids, lignans, and phytosterols, each conferring unique benefits.

Antioxidant Arsenal: These compounds serve as antioxidants, counteracting harmful free radicals and mitigating oxidative stress, a primary driver of NCDs like cardiovascular disease and cancer.

Combating Inflammation: Certain bioactive compounds found in millets exhibit anti-inflammatory characteristics, potentially alleviating chronic inflammation associated with various metabolic disorders.

Gut Health and Immunity: Recent studies indicate that bioactive compounds derived from millets may influence the composition of gut microbiota, fostering digestive health and reinforcing immune function.

Addressing Non-Communicable Diseases:

The alarming surge in NCDs presents a formidable challenge to global healthcare. Nonetheless, the nutrient-dense profile and bioactive compounds in millets offer a promising strategy for NCD prevention and management.

Mitigated Risk of NCDs: The fibre content in millets aids in cholesterol regulation and promotes satiety, thereby reducing the likelihood of cardiovascular events and complications related to obesity.

Guarding Against Chronic Illness: The antioxidant properties of millet-derived polyphenols and flavonoids help counteract oxidative damage, potentially thwarting the onset and progression of cancer and neurodegenerative disorders.

Benefits Extend to Animals:

The advantages of millets transcend human health, extending to animal welfare and sustainable agriculture.

Sustainable Livestock Nutrition: Millets serve as a sustainable alternative to conventional grains as livestock feed. They necessitate fewer resources while delivering comparable

nutritional value, resulting in healthier livestock, enhanced productivity, and a diminished environmental footprint in animal agriculture.

Biodiversity and Sustainability: Incorporating millets into animal feed supports biodiversity preservation and natural resource conservation, aligning seamlessly with principles of ecological sustainability.

Millets: Tiny Treasures with Mighty Benefits

Millets, hailed as the ancient grains making resurgence in contemporary cuisine, offer more than just sustenance; they represent a culinary journey waiting to be explored. Their inherent adaptability transforms them into a versatile ingredient, lending themselves to a myriad of dishes, from comforting porridges and fluffy pancakes to delectable breads and flavourful pilafs. Seamlessly integrating into various culinary traditions, millets enrich dietary diversity with their unique textures and tastes.

In an era marked by increasing awareness of dietary restrictions such as gluten sensitivities and celiac disease, millets serve as a beacon of inclusivity. Naturally gluten-free, they offer a safe and nutritious alternative, ensuring that no one is left out from enjoying wholesome meals.

Unveiling the Future of Millets:

The convergence of technology and tradition propels millets into a new era of agricultural innovation. Precision agriculture, leveraging remote sensing, drones, and intelligent sensors, empowers farmers to monitor millet cultivation with unparalleled accuracy. By optimizing resource utilization, from water and fertilizers to pest control, farmers maximize yields while minimizing environmental impact.

Bio fortification emerges as a promising avenue to enhance the nutritional profile of millets. Enriching these grains with essential micronutrients like iron and zinc addresses dietary deficiencies, particularly in vulnerable populations, enhancing their health and well-being.

Innovations in processing technologies enable the creation of a diverse range of millet-based products. From nutritious flours to convenient snacks, these value-added offerings cater to evolving consumer preferences, driving the popularity of millets in the global market.

Conclusion:

Millets epitomize nutritional ingenuity, offering a comprehensive solution to the intertwined challenges of NCDs, human health, and sustainable agriculture. By harnessing the potential of millets and their bioactive compounds, we can revolutionize dietary paradigms and enhance health outcomes worldwide. This journey of rediscovering and embracing ancient grains holds the promise of nourishing both our bodies and our planet for generations to come.

Visit of the Japanese ambassador to India

On 6th Feb 2025, the ambassador of Japan to India, Mr. Keiichi ONO alongwith officials from the Japan Bank for International Cooperation (JBIC) visited the bamboo harvesting site of ABEPL at Barak Sorong Village in Dimoria. The ambassador was welcomed by the ABEPL team and local farmers. JBIC is supporting the initiative for improving livelihood of the farmers through bamboo cultivation utilising local resources.

Mr. Keiichi ONO and JBIC officials at Dimoria

Farewell to Mr. Sanjay Choudhuri

The ABEPL team organised a farewell event in honour of their chairman Mr. Sanjay Choudhuri on 23rd Feb 2025. EIL employees and other business partners were also present on the occasion. The celebration included speeches from various speakers reflecting upon Mr. Choudhuri's leadership qualities, his integrity and vision.

Farewell event of Mr. Sanjay Choudhuri in ABEPL

Visit of Mr. George Thomas

Mr. George Thomas with ABEPL officials and MD NRL

Mr. George Thomas, Government nominee director of MOIL and Deputy Secretary, MOPNG visited ABEPL site on 28th Feb 2025. Mr. Thomas visited ABEPL's plant and witnessed operation of the bamboo chipping unit.

Safety week celebration at ABEPL

Celebrating Safety Week at ABEPL

ABEPL celebrated the National Safety Week 2025 from 4th till 11th March 2025 at their plant to enhance awareness on employee health and safety. As part of the initiative, various safety related activities, training sessions and engagement programs were organised.

International Women's day Celebration

On 8th March 2025, ABEPL celebrated the International Women's Day with the theme - "For all Women and Girls: Rights, Equality, Empowerment". On the occasion, Dr. Barnali Deuri of VKNRL Hospital conducted a session on Women's Health and Hygiene.
