

| DATASHEET OF BUCKET STRAINER (SIMPLEX TYPE) | | | | | | | |
|---|---|---|-------------------------------|--|--|--|--|
| 1.0 DESIGN PARTICUL | ARS | | | | | | |
| a) Fluid to be handled | k | Blow down slop oil ex CC-10 | | | | | |
| b) Working Pressure | | 6.7 Kg/cm2 (g) | | | | | |
| c) Quantity required | | 2 nos. | | | | | |
| d) Line size & thickness | | 8 inch & 6.35mm | | | | | |
| e) Flow Rate | | 50 M3/Hr | | | | | |
| f) Ratio of strainer to pipe cross section area | | 3 times (min.) | | | | | |
| g) End connection | | Flanged raised face serrated finish and dimension to ANSI B-16.5, Rating 150 lbs. | | | | | |
| h) Pressure Drop across strainer | | 5 MWC | | | | | |
| 2.0 MATERIAL OF COM | NSTRUCTION | 3.0 TESTING PARAMETER | | | | | |
| \ D | ASTM A234 GR.WPB | a) Hydrotest - Body | 17Kg/Cm2 (g). | | | | |
| a) Body | | b) Performance | Pressure drop across strainer | | | | |
| b) Cover Plate | CS | 5.0 MARKING | | | | | |
| c) Filter | SS-304 wire 8 Mesh (Min.) with SS 304 perforated sheet. | The Strainer shall be clearly and permanently marked with the following: a) Certification mark as per relevant code. b) All valves to bear stamping mark by third party. | | | | | |
| d) Conn pipe | API 5L GR.B | 6.0 SPECIAL NOTES | | | | | |
| e) End | CS | a) All Simplex strainer to be supplied with spare bucket complete with straining element so that in the event of strainer getting clogged the upstream valve shall be closed and the bucket complete with straining element shall be replaced thus keeping the system inoperative for minimum period. | | | | | |
| f) Gasket | SS304 SPIRAL WND +CA FIL | | | | | | |
| g) Bolt's & Nuts | A 193 Gr. B16/A 194 Gr.4 | | | | | | |
| h) Drain | Carbon steel (Screwed BSPT(F) | | | | | | |
| i) Vent | Carbon steel (Screwed BSPT(F) | | | | | | |
| j) Support Legs | CS to IS:2062 | | | | | | |
| k) Conn Flanges | ASTM A105 , Dim. Std = B16.5 | 1 | | | | | |
| 4.0 WORKMANSHIP, I | | | | | | | |
| a) Workmanship | Good | -b) Since strainers do not bear ISI certification mark type | | | | | |
| | All burrs and sharp edges shall be removed and the | test certificate to be submitted from TPIA | | | | | |
| b) Finish | inside surface should have smooth finish | | | | | | |
