

NUMALIGARH REFINERY LIMITED

CLARIFICATION TO PRE-BID QUERY

Date : June 19, 2019
Name of Work : Procurement of Non-Metallic Octane-Booster
Tender no. : OC44000039/PRA Dt. 07.06.2019

Pre-Bid queries raised by Bidder-A and NRL's reply in this regard are as below:

SN	Pre-Bid Query by Bidder -A	NRL's Reply
01.	Can we supply our octane booster from all 3 units simultaneously?	→ Yes. You can supply. However, please refer clause no. 8.2 of Tech. Spec Doc; wherein it is clearly stated that in case bidder indicates more than 1 (one) despatch locations, distance from furthest despatch location shall be considered for calculation of the landed cost (P2).
02.	Refer to PQC clause 2.4, a bidder must have supplied Octane booster to other petroleum oil company. Please clarify whether OTHER petroleum oil companies means addition to supplies to NRL	→ Other petroleum oil company means - NRL or any other petroleum oil company.
03.	Refer to clause no. 8 (Price bid evaluation criteria): if the tender is on ex-works basis, dispatch location distance should not be considered in calculation of the landed cost.	→ Not acceptable. Shall be as per Tender only.
04.	Since the tendered item is non-metallic octane booster, as per our understanding metal content should be checked and it should be the part of technical specification.	→ Since tender is for non-metallic octane booster, it is to be ensured by the bidder that offered product conforms to non-metallic octane booster. NRL at its discretion may check additional parameters at any stage which are not included in the technical specification.
05.	Further to above, we also request you to kindly extend the due date by 7 to 10 days.	→ Bid Submission close date extended up to 26.06.2019 (before 11 AM) with Bid opening as on 27.06.2019 (as mentioned in the e-procurement Portal)
